Campton, Hazel Green.

JOHNSON & SWANGO,  
ATTORNEYS-AT-LAW.

Will practice in the Wolfe county and circuit courts. Collections promptly made and abstracts of title furnished on short notice.

J. A. TAUBER, M. D.,  
Physician and Surgeon,  
HAZEL GREEN, KY.

Surgery and obstetrics specialty

## KENTUCKY ITEMIZED.

A RESUME OF THE IMPORTANT  
EVENTS OF THE WEEK.

Things of a Newsworthy Nature Rolled Down to Halt the Convenience of the Hasty Reader—Kentucky Down to Date.

—Emmet Fritz, a lad aged nine years, jumped from a Lexington street car and had his foot badly amputated.

—The report has gone out from Jackson, that the French-Eurole feed is likely to break out afresh.

—Harmon Nash, sr., one of the oldest citizens of Shelby this week last was paralyzed at the age of 95 years.

—Henry S. Cohn, of Louisville, has been appointed an aide on Gov. Bradley's staff, with the rank of colonel.

—A permanent Democratic club has been organized at Louisa, in Lawrence county and will be called the Northrup Club.

—Green Turley, of Richmond, has a pair of boots he has been wearing for twenty-five years. "A rose by any other name would smell as sweet."

—Dr. Young, president of Centre college, Danville, this week leave for Excelsior Springs, Mo., to remain some time for the benefit of his health.

—The Cincinnati Southern depot at Danville was robbed by masked men last Friday night, but the cash drawer contained only a small sum at the time.

—Auditor-elect Shaw has informed the boys of the auditors' office that they will have to stop down and out, so fast as the "welfare of the state" will permit.

—Hon John W. Yerkes, of Danville, will be a candidate for delegate to the National Republican convention from the Eighth Kentucky congressional district.

—The term of E. C. Barlow, postmaster at Georgetown, expired on Monday. Barlow is a Republican, and it is thought he will be succeeded by I. A. Adams, a Democrat.

—S. G. Nance, representative elect from Webster county, says: When the senatorial contest narrows down to Mr. Blackburn and one more, I shall vote for the other fellow.

—A tail-end collision in a tunnel near High Bridge, the Cincinnati Southern railroad resulted in the death of two men. Conductor D'Val and a workman named Michael O'Day.

—The American Association of Middleboro, has sold all its chestnut and oak timber to W. T. Shepherdson, who has just contracted for the early delivery of 100,000 railroad cross-ties.

—The Masons of Lexington will give a banquet the night after Christmas, and among the speakers who will entertain those attending are W. C. P. Breckinridge, J. Soule Smith, George Penny and others.

—A large number of ladies throughout the state have petitioned Gov. Bradley not to appoint an unmarried man as physician to any of the asylums of the state, and the governor has the matter under consideration.

—An attempt was made a few nights since to murder Sam Hale, a farmer who lives near Lebanon, while in his bed and in slumber. He got his pistol and fired at the assassin and then escaped through a rear door to a neighbor's house.

—The Frankfort Roundabout says: A convict in the penitentiary told a guard at that institution on last Wednesday that three of the most expert pickpockets from Chicago were in the prison the day before with a party of visitors, that he knew them well, and that one of them gave him a "twenty case note" (\$20).

These were doubtless members of the gang which so successfully worked the crowd at the inauguration.

—The failure of the Hon. G. W. Hunter, of Kentucky, to designate the place of his birth for the congressional directory caused some comment in Washington, since people believe that he is a birth place a secret in that it might injure him in his political aspirations, especially if his ambition should soar to the presidency. All that is known is that Mr. Hunter will be fifty-four years of age next Christmas morning.

—State Inspector Gardner is preparing a report, which he will file with Gov. Bradley Monday in reference to Swango's shortage. It has come out from a reliable source that the shortage he is reduced to about \$875 or something like \$75 less than at first reported. It is also understood that Register Swango will file a supplemental statement conceding the correctness of the figures and giving an explanation of his course which will fully exonerate him from any intent to defraud the state. The report of the inspector will also contain some explanatory matter.

## REGISTER SWANGO'S CASE.

Rondman Trimble Very Emphatic in Defense of His Friend.

In your issue of the 9th inst., you publish the report of W. H. Gaudin, state examiner and inspector, purporting to show a statement of the account of G. B. Swango, register of the land office, with the commonwealth of Kentucky, and that he is a defaulter to the extent of \$950.72, which report is accompanied with a photograph of Swango, so that (as I suppose) he might be readily recognized by strangers and public officers, and arrested in the event that he should undertake to make his escape from the state or flee from justice.

This report does Judge Swango great injustice, as it was not made and published and his books examined during his temporary absence while engaged in removing his family and household chattels to his old home at Hazel Green, in Wolfe county, as Mr. Gardner, as well as Gov. Brown, were both informed that Swango would be in Frankfort at the inauguration on Tuesday, the 10th, and the governor was also assured that every dollar claimed should be paid by 10 o'clock on Monday morning, the day it was paid, and on the same day the report was published. I am one of the sureties on Judge Swango's official bond, and was not informed of the alleged shortage in his accounts until late Sunday evening last, and when so informed I immediately gave my check to cover the amount without the solicitation of Judge Swango, knowing that he would return it to me when demanded, and had it been for the full amount of all the funds he had received during the whole of his administration, it would have been promptly paid without a law suit.

It was not proposed for the state to lose a dollar, as Judge Swango is responsible and a man of property, and his bondsmen are worth more than a hundred times the amount claimed. Green B. Swango is not a defaulter, and did not owe the state the amount claimed in said report, as shown by the books, which Mr. Gardner relies upon as a defaulter.

It is not to be supposed that the amount paid will have to be refunded by the state. It is therefore due to Judge Swango that Mr. Gardner should make a re-examination of the books, and that he, as ex-cave of the make the result of his investigation as public as they have the accusations against him.

I have been intimately acquainted with G. B. Swango from his infancy, and know him to be an honest man, an upright citizen, a high-toned gentleman, and incapable of knowingly doing a wrong, and for honor and integrity will compare favorably with those who would undertake to traduce and slander him.—J. G. Trimble, in Courier Journal.

NOTICE—To all lovers of good bread. I will sell the well-known brand of White Pearl Flour, manufactured by S. P. Kerr, of Winchester, Ky., from this date up to the first day of January, 1897, at \$2.25 per 100 pounds. Your trade is solicited. Respectfully, S. S. COOPER, Campton, Ky.

Boley Clark, of the Cox Mill neighborhood, has been confined to his bed with a case of fever for ten days past.

Flavor and a Bad Cough.

Following this a sore came on her right side between the two lower ribs. In a short time another broke on the left side. She would take spots of more motion when we had succeeded in overcoming this she would suffer with attacks of high fever and exhal bloody stools, corruption. Her head was ached, and matter oozed from her ears. After each attack she became weaker.

## Hazel Green Academy.

Consider the following facts:—

1. "The cheapest and best school in Eastern Kentucky."

2. A town without saloons or places of immorality.

3. A home where pupils board and live with the teachers.

4. A library of many volumes and current periodicals.

5. Eight courses of study, viz: Primary, intermediate, preparatory, teachers', business, Bible, music, short hand and typewriting.

6. Regular graduating courses, or elective courses.

7. Tuition, 20 weeks \$10.00 (tuition for music, short-hand and typewriting extra).

8. Former pupils teaching the best schools in many counties, and holding first-grade certificates.

9. Special attention to declamation and oratory. Holds medal from Blue Grass declamatory contest.

10. Diplomas given to all who complete courses. A chartered institution.

11. Board, washing, tuition, etc., \$24 for 30 weeks.

Enroll at any time.  
WM. H. COORD, Principal.  
December 12, 1896.

Quite a romantic marriage took place in our quiet little village last Monday. As per announcement in our last issue, the bride and groom were Miss Lucy Wallis, of near Daysboro, in this county, were united in the holy bonds of matrimony. The bride and groom and the attendants were on horseback when the ceremony was performed by Elder J. T. Pieratt, after which the party galloped away. The attendants were Ed F. Cecil and Miss Martha Byrd, George Byrd and Miss Minnie Wallis, Andy Rankin and Miss Florida Gillespie. The party had dinner at the hospitable home of our fellow-countryman, Ed F. Cecil, by way of an affair, and then departed with hand shaking and protestations of love and friendship for the future. Mr. Lee and his wife left Tuesday for their western home, and all wish them to join with us in the wish that they may have a long life of pleasure and prosperity.

Beware of Quackery for Catarrh That Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should be avoided. Be sure you get prescriptions from reputable physicians, as the damage they will do is ten fold the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75 cents per bottle.

J. T. Day's big mill is rapidly rising as a gigantic monument to that gentleman's energy and enterprise. If the farmers of this county can be induced to raise wheat, now that they will have a home market for it at a good price, they will be the gainers. Mr. Day says he will purchase all the wheat that may be raised, at good prices, and this certainly ought to induce farmers to put in their best fields. There is no reason why a country like this can not produce the wheat used by its own people in flour, and we have no reason to doubt when not one pound of flour will have to be brought here to supply the demand.

If you are indebted to this office on subscription, job work or advertising, you will obligingly pay very much by coming to the Captain's office and paying your dues. We need a little of the fifty lucre about as bad as a hobo does a man's victuals at times, and your promptness will relieve our distress and be forever appreciated. Never mind the rush. Come on and we'll try and attend your wants.

Morgan Moonshiners.

Deputy United States Marshal George Lacy, of Morgan county, on Friday arrested Harry Terrill and took him to Gray Creek, for illicit distilling. He arrested them in the little cabin that served them for a stillhouse, while they were busily engaged with their moonshining.

Terrill has another charge against him for a similar offense, for which he is under bond for his appearance at the next term of the United States court at Lexington, and Peyton had just returned from Louisville a few days ago, where he had been confined in jail for about eight months for the same offense.

Mrs. Lou Day is just now in receipt of her new fall and winter stock of hats, bonnets, trimmed and untrimmed, all kinds of cloaks, gowns, notions, etc., etc., to which she invites the attention of the ladies of this section. She also keeps a full line of fancy and staple groceries, which will be sold for cash or country produce, and at the lowest retailing prices.

## Constipation & Biliousness

Sick-headache, Pains in the back, Sallow complexion, Loss of appetite and Exhaustion.

There is only one cure, which is

RAMON'S LIVER PILLS.

One Pink Pill touches the liver and removes the bile.

One Tonic Pellet nightly, acts as a gentle laxative in keeping the bowels open, restores the digestive organs, tones up the nervous system and makes new rich blood. Complete treatment, two medicines, one price, 25c.

Treatise and sample free at any store. BROWN MFG. CO., New York.

Swango All O. K.

The daily papers announced Monday, in flaring headlines, that G. B. Swango, register of the land office, was a defaulter. We do not believe it. Mr. Swango being at his home in Hazel Green, fifty miles from railroad or telegraphic communication, was not apprised of the charge against him, nor given any chance to explain the discrepancy in his books, till the news was sent out all over the country that he is short in his accounts. The alleged shortage is only \$950.72. During Mr. Swango's absence from Frankfort, Gov. Brown instructed State Inspector Gardner to examine the records of the register's office for the four years of Swango's service. The inspector having reported the shortage named, the governor made the announcement to the press. We think the announcement was premature. Mr. Swango, at least, had the right to be heard before he was branded with infamy and published to the world as a defaulter. We have no doubt of his ability to explain the discrepancy, and until he has a chance to be heard, we will not accept the story that he is guilty, either of negligence or crime.—Lexingtonville Enterprise.

Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market."

It is this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by John M. Rose.

Miss Annie Pieratt, of Ezell, and Doyle Nickless were united in the holy bonds of matrimony on Wednesday, the 4th inst., Rev. Dunaway officiating. The bride was a pretty girl, and the ceremony here, and is a prepossessing petite beauty.

She is a daughter of Silas Pieratt, of Ezell, and a sister of our fellow townsman, Willie Pieratt. The groom is a young business man of good address, and has accepted a position with the Missouri Pacific Railroad company at Osawatomie, Kansas, with which company he worked 10 months on a former occasion, and they will make that place their future home. THE HERALD extends congratulations and wishes them an abundant success.

A. E. Kilpatrick, of Fillmore, Cal., had the misfortune to have his leg caught between a cart and a stone and badly injured. Ordinarily he could have been laid up for two or three weeks, but says: "After using one bottle of Chamberlain's Pain Balm I began to feel better, and in three days was entirely well. The peculiar soothing qualities which Chamberlain's Pain Balm possesses I have never noticed in any other liniment. It takes pleasure in recommending it." This liniment is also in great value. Rheumatism and lame back. For sale by John M. Rose.

Died, on Sunday morning about 1 o'clock, at the residence of her brother-in-law, Tom Clare, who lives at the old Gibbs' place, just above town, Mrs. Ida Spaulding. Ordinarily he could have been laid up for two or three weeks, but says: "After using one bottle of Chamberlain's Pain Balm I began to feel better, and in three days was entirely well. The peculiar soothing qualities which Chamberlain's Pain Balm possesses I have never noticed in any other liniment. It takes pleasure in recommending it." This liniment is also in great value. ## REDTOP IS VALUABLE.

A perennial grass suited to our Northern climate. A perennial grass, growing two or three feet high from creeping root stocks, which interlace so as to make a very firm sod; the culms are upright, or sometimes decumbent at the base, smooth, round, rather slender and clothed with four or five leaves, which are flat, narrow and roughish, from sheath and inches long, with smooth and finely truncate ligules. It is extensively cultivated. Mr. J. G. Gould says: "This is a favorite grass in wet, swampy meadows, where its interesting, thick roots constitute the reward, making a firm matting which prevents the feet of cattle from poaching. It is generally considered a valuable grass in this country, though by no

means the best one. Cattle eat it with a relish, especially when mixed with other grasses. As a pasture grass it is much valued by dairymen, and in their opinion the butter would suffer much by its removal. It is a good permanent grass, standing our climate as well as any other, and consequently well suited to our pastures. In which it should be fed close; for if allowed to grow up to seed the cattle refuse it, and this tends to show that it is not so much relished by stock as some of the other pasture grasses.—Prairie Farmer.

## EXCELLENT STOCK FEED.

An Official Bulletin Treating of Sweet Potatoes and Their Uses. The department of agriculture has issued a bulletin treating of sweet potatoes and their uses. Only in localities favored with transportation facilities and good markets is the sweet potato a safe crop. But as a food for stock the department thinks it should be extensively grown in regions adapted to it. The roots have been successfully fed to hogs, cattle and horses. For cattle and horses it is better to slice the roots. Of all classes of stock, hogs can be used to consume sweet potatoes to the best advantage, since they do their own digging.

Sweet potato vines are usually left to decay in the field where they are grown. However, they may be used as food for cattle. An analysis of very succulent sweet potato vines, grown in Texas, showed them to be practically identical in chemical composition with sweetbait new pea vines, of which the feeding value is well established.

Vines of five varieties were analyzed at the Georgia station and showed considerable differences in composition. It is claimed that the vines of the so-called vineless variety, which stand up, can be used with a growing vine, and to permit of this it will be necessary to cultivate nearby level. The vines are better suited for feeding green than for curing into hay. In the fifth they are said to become bluish. A writer says he weighed a heavy crop of green vines, and found that the weight was five and one-sixth tons per acre. At the Texas Experiment station the yield of green vines was much greater.

The sweet potato is a valuable crop. They are worth raising for stock feed alone, but sometimes it happens that there is a good local demand at very remunerative prices. The man who has a large yield when the general crop is poor generally gets good pay for his efforts. If prices are unsatisfactory it would pay to try the experiment of feeding to stock.

## NOTES FOR BEEKEEPERS.

Select the best stock in the apiary for queen raising. A cell properly developed and of full size is sure to produce a well developed queen.

The life of the bee depends upon the work it does. When it labors its life is short.

Drone laying queens are worthless in every respect, for the drones they produce are deficient.

To avoid cracks in cakes of wax do not allow the outside to cool rapidly. Put a cloth and board over the dish while cooling, or let it stand in a stove until the fire dies out overnight. This will prevent the wax from cracking. This respect will lead to the improvement of the wax at least.—St. Louis Republic.

## DEEP MILKING EWES.

Suggestions as to the Raising of a Healthy Flock of Sheep.

Now and then you will see among the enumerated good qualities of a particular breed of sheep, that the ewes are deep milkers and good mothers. In looking over the flock of breeding ewes with lamb at foot, the most casual observer must have noticed that some lambs showed the effects of much better care than others; that certain ewes with twin lambs were doing better by the time the lambs were a few weeks old than many of their companions who had but a single lamb. The ewes may have been of the same age, and the lambs may have been dropped about the same date, and the feed and all other conditions may have been the same, notwithstanding the above results. What, then, is the cause of this difference in the lambs? Much, very much of it is due to the fact that the one ewe is the better milk, and as the yielding of milk is a distinctive maternal quality, it must necessarily follow that she is a better mother. While it is a good thing and a correct practice to teach the lambs to eat grain at the earliest possible moment, the great first start and impetus to growth must come from that most natural of all foods—milk, and for this purpose that of the mother is superior to all others.

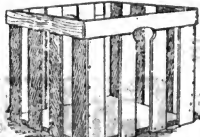

These things being true, says Wool Markets and Sheep, it would seem the most natural thing to do to improve the milking qualities of the breeding ewes. There are several ways in which this might be done, but the most practical is in possession of the average flock of sheep there seems at present no better means at hand than careful selection and development by the feeding of foods especially adapted to the production of milk. No shepherd or stockman will feel disposed to deny such teaching, and so do many so-called dairymen, but they are not the ones who are making money out of the business of keeping ewes. Some men never pay any attention to the ewe's milk when weighing time, with the result that such suffering, and not infrequently serious loss, follows.

We wish to impress upon the minds of our readers that this is not an idle theory, and that it is perfectly plausible to increase the milking qualities of your ewes as those of your cows, and that while the profits may not be so great they are still worthy of grave consideration. If you should have a number of ewes in the flock that yearly produce and rear extra lambs note if they are not superior milkers, and in such an event save for the breeding flock the female lambs from all such mothers, and we prophesy that in the end the results of such selections will greatly surprise you.

## CRATE FOR POTATOES.

Quite an Improvement Over the Style Now in Common Use.

The cut shows a crate with the slats all upright, obviating the use of corner supports, since in the case here illustrated the slats lap at the corners and thus nullify great stiffness to the whole crate. The use of such crates for gathering potatoes, apples, etc., cannot be too highly commended. A lot of them can be made up—enough at least to make a wagon load—and load after load taken from the field with a single handling of the vegetables or fruit, which saves much in time and

also in the great lessening of bruising. This, in the case of apples, pears, etc., is an item of great importance, for the keeping qualities of fruit depend very largely on preventing bruises. The crates are made perfectly waterproof, so they can be piled up in a wagon load with great ease. The making of such crates is here figured in a very simple manner. Where a large number are to be made, get the material sawed to the right dimensions at the mill. The proper length even of bottoms and slats can be sawed off at the mill, leaving only a bit of nailing together, and the cutting of a place for the hand on either side as shown. Such crates, with careful use, should last a dozen years.—N. Y. Tribune.

## Feeding Hogs to Cold Weather.

After cold weather comes the increased amount of oxygen in the air, which is breathed expands the lungs and makes the appetite better. In hot weather the air breathed expands very little, if at all, in the lungs, while when the thermometer is near to zero this expansion of the air in the lungs invigorates the system in every way. Stock that gets considerable exercise does not mind this difference so much. The fattening steer or cow will, if allowed, take a great deal of exercise and thus keep itself in health. A fattening hog, on the contrary, is always lazy. When not eating he is lying down. For this reason the hog should be fed freely on corn only during very cold weather, when even the lazy animal is obliged to inhale a good deal of oxygen.—Burl World.

Important Lesson. "I really astonished and mortified at your conduct," said the old-fashioned father. "Authentic reports have reached me that while you were away this summer you led on no less than eight young men to propose to you merely for the pleasure of refusing them." "But, papa," pleaded the maiden, "you always told me one of the most important lessons for a young person was to learn to say 'no'."—Cincinnati Enquirer.

## ERYSIPELAS AT EL.

Physicians Favored Amputation of the Limb.

It Was Not Done, and the Patient Was Cured by Internal Remedies, Galveston, Ill. Biggsville, twenty-nine miles west of Galveston, Ill., on the line of the Chicago, Burlington & Quincy Railroad, is an old, quiet little village. Earlier days it was noted as a good business point.

It was here that a representative of the Republic, a young man, named Talcott, 31 years of age, who told him, in the presence of her grateful daughter, Mrs. E. Sloan, the following story, which is given as nearly as possible in her own language: "Yes, it is with great pleasure that I can give my testimony to the great value of Dr. Williams' Pink Pills. Over thirty years ago I was taken with a chill and malaria set in. For sixteen weeks I was not able to walk a step. The physicians proposed to take off one of my limbs, but finally decided not to do so. It mortified in spots, which had to be cut or burnt out. After I was able to get about, with the use of crutches, every two or three months erysipelas would set in again, and I suffered intensely from it. I had a good many different doctors: Dr. Hinch, of Sheridan, Iowa; Dr. Brown, of Chanute, Kansas; Dr. Scott, of Burlington, Iowa; Dr. Trembly, of Oakland, California; Dr. Seaside, of Galveston, Illinois, and a doctor in Kansas City, who seemed to have done everything, but after treatment from all these physicians, instead of getting better, began to get very much worse. The other limb would not move, and I was unable to get out of the house. I could not sleep nights without the aid of morphine. My limbs were so badly swollen that I could not put on my shoes or walk a step without either having on a heavy bandage or a silk or rubber stocking. About a year ago I read of one of my limbs, but finally decided not to do so. It mortified in spots, which had to be cut or burnt out. After I was able to get about, with the use of crutches, every two or three months erysipelas would set in again, and I suffered intensely from it. I had a good many different doctors: Dr. Hinch, of Sheridan, Iowa; Dr. Brown, of Chanute, Kansas; Dr. Scott, of Burlington, Iowa; Dr. Trembly, of Oakland, California; Dr. Seaside, of Galveston, Illinois, and a doctor in Kansas City, who seemed to have done everything, but after treatment from all these physicians, instead of getting better, began to get very much worse. I had a good many different doctors: Dr. Hinch, of Sheridan, Iowa; Dr. Brown, of Chanute, Kansas; Dr. Scott, of Burlington, Iowa; Dr. Trembly, of Oakland, California; Dr. Seaside, of Galveston, Illinois, and a doctor in Kansas City, who seemed to have done everything, but after treatment from all these physicians, instead of getting better, began to get very much worse. The other limb would not move, and I was unable to get out of the house. I could not sleep nights without the aid of morphine. My limbs were so badly swollen that I could not put on my shoes or walk a step without either having on a heavy bandage or a silk or rubber stocking. About a year ago I read of one of my limbs, but finally decided not to do so. It mortified in spots, which had to be cut or burnt out. After I was able to get about, with the use of crutches, every two or three months erysipelas would set in again, and I suffered intensely from it. I had a good many different doctors: Dr. Hinch, of Sheridan, Iowa; Dr. Brown, of Chanute, Kansas; Dr. Scott, of Burlington, Iowa; Dr. Trembly, of Oakland, California; Dr. Seaside, of Galveston, Illinois, and a doctor in Kansas City, who seemed to have done everything, but after treatment from all these physicians, instead of getting better, began to get very much worse. The other limb would not move, and I was unable to get out of the house. I could not sleep nights without the aid of morphine. ## ANNOUNCEMENT.

We are authorized to announce CHAS. T. BYRD, of Campton, as a candidate for the office of Circuit Court Clerk for Wolfe county, subject to the action of the Democratic party.

Charley Reynolds, the new register of the land office, knocked a fellow down in Frankfort the other night and walked off as placidly as though he had just scooped a "jack pot" in a game of poker. The fellow approached him and said "you owe me two dollars." Charley politely said, "I guess you are mistaken." Whereupon the fellow insisted and intimated that he would take it out of the new register's hide. Charley let drive with his good right hand and laid the fellow full length upon mother earth, remarking as he did so, "There's your two dollars and if your pal will come on I'll settle with him the same way." Charley treated the fellow as he deserved, but as he has not yet been installed in office isn't a bit early to begin "knocking down?"

Austin Corbin, as manager and principal stockholder in the "Sunny Side" company, which owns 12,000 acres of land on Lake Chicot, Ark., 20 miles from Greenville, Miss., has just located on the land 140 Italian families, 700 in all, by way of solving the labor problem of the south. These "dagos" will farm on their own account, each head of a family having allotted to him an average of 16 acres of land for cultivation in cotton. It is an experiment that may prove a God-send to the south, as the ubiquitous colored brother has proved to be an "uncertain quantity" in the cotton-growing country.

We acknowledge the receipt of a copy of Harvey's "Patriots of America," a new book on the financial problem. The recent campaign was flooded with papers prepared by "Coin," which is the nom de plume of Mr. Harvey, and he is now attempting to organize a party politic to be known by the pretty title of "Patriots of America." The Democratic party contains the patriots of America to all intents and purposes, and Coin will have his hands full in trying to persuade the people otherwise.

The inauguration of Governor Bradley attracted to Frankfort the largest crowd that ever assembled at the "hole in the hills," and in ten hours' time there was more money stolen than within ten years of Democratic rule. These thefts, however, were due to an army of pickpockets—not politicians—and Republicans and Democrats suffered alike, the percentage being in favor of the former only from the fact that more of 'em were there to be fleeced.

The Sturgis Ledger, published at Sturgis, county seat of Union county, last week contained 20 pages and a supplement, all well filled with advertising. Headley Curd, the editor and publisher, is certainly right in it and the people of his town evidently stand in with him to make their local paper the success which it shows.

Office-seekers have been gently reminded by Governor Bradley that he will need all his time to prepare his message to the legislature, which will convene on the 7th day of January, and that he does not wish to be bothered with their importunities. Bah! Bill, that bluff don't go, and you will find it so.

Now, that the Republican party holds the reins of government in Kentucky we may expect a reduction of taxes, an economical and wise administration of state affairs and an all-round good time generally. That's what they promised. The people will expect it, and defeated Democrats will demand it.

**HERALD**  
Treatment of Infants.  
"You should have a thermometer to ascertain the temperature of the water," said a mother to the nurse.  
"What for?"  
"To tell whether the water is too cold or too hot."  
"Don't need no sich dockerment. Ef de chile turns blue de water am too cold, and ef bit turns red it am too hot." And now the colored lady is open to an offer.—Texas Siftings.

Vindictive.  
Mrs. Husband—Mother says she will be here tomorrow. What room shall we give her?  
Mr. Husband—The one with the folding bed in it.—Judge.

**\$5.00**  
**For Two Months Rent.**

We feel confident that a great many will appreciate this liberal offer, and have obtained a large supply of instruments from the Electro-Poise Co. No one can afford to be without an Electro-Poise, especially in winter, when it is so effective for colds, lagrippe, pneumonia, etc., as well as all forms of chronic ailments. Rheumatism speedily and effectively cured. Liberal terms for the ultimate purchase after renting.

Those who are not familiar with the wonderful curative work of the Electro-Poise should write for booklet giving full particulars. It is endorsed by thousands all over the country.

# THE HERALD.

Better read that ad of sheriff's sale. Your property may be involved.

Mrs. Lucy McGuire, of this place, spent Sunday with friends at Hazel.

W. S. Albright, the insurance agent, is quite sick at Marlins, in Menefee county.

The baby last week announced as born to the wife of Harlan Wilson, died a few days since.

George Drake, ex-sheriff of this county, is now night watchman at the Phoenix Hotel in Lexington.

Marshall E. Combs, of Hazard, was the guest of his uncle, Hon. D. S. Gail, Wednesday night.

Carolina Sheekey has been appointed postmaster at Shockey, in this county, vice Julian Shockey, resigned.

What in the world can be the matter with our corps of correspondents this week? Not one has showed up.

Mrs. John H. Rose, whose illness has been mentioned in these columns for months past, is still confined to her bed.

A good appetite and refreshing sleep are essential to health of mind and body, and these given by Hood's Sarsaparilla.

James C. Swango, of Maytown, whose illness has been reported in these columns, on Monday considered no better.

A postoffice has been established in Breathitt county, and named Herald, with Breckinridge H. Herald as postmaster.

Rollin Kash has completed his law office and is now ready to receive there a J. M. Havens, the jeweler, occupies a part of the room.

Dr. J. F. Lockhart, the dentist, is here, located at THE HERALD home, and will remain for a day or so only. If you need work in his line, call at once.

There is a two weeks' old baby girl at Oscar McNabb's, on Chapel Branch, of which Mr. and Mrs. McNabb are quite proud, and they have named her Mattie Jane.

Uncle Wash and Aunt Julia Childers, of Maytown, paid our town a pleasant call on Tuesday, and both reported Jas. C. Swango, of their town, as very much better.

Judge Swango has filed his report with Auditor Newman, a copy of which is now in this office. Space forbids its publication this week, but it will appear with our next issue.

Ben Quickall, who has been our correspondent at Pomeroyton for some time, is wrestling with a carbuncle on the back of his neck. He is now at his home on Blackstone in Morgan.

Mr. Lindsay Ware left here Tuesday morning on a business trip to Eastern Tennessee, and will probably be absent several weeks. His wife, who has been quite ill, has almost entirely recovered.

Lost, in the town of Hazel Green, on Monday last, a pair of nickel-frame spectacles. No. 86 is one of the temples. A reasonable reward will be paid for their return to the shop of Rose & Davis.

A. P. Clark, of the Cox Mill neighborhood, is in Mt. Sterling this week looking for a residence and business home, and if he succeeds in renting a house there to that place about the first of January.

Fulton Combs, on trial at Hazard for alleged complicity in the murder of Judge Comb at that place, has just secured a change of venue and will be tried in the Breathitt circuit court at the March term.

The blind colored preacher has been holding a meeting at Hazel since Saturday, and is attracting large crowds from many country people being in the congregations. He is said to be a very forcible pulpit orator.

The members of the order of the Eastern Star are requested to meet in the hall of Mirzap Lodge No. 507 F. & A. M. on Saturday, Dec. 21. As business of importance must be transacted a full attendance is desired.

John Evans was on Friday last thrown from a mule and had his left knee badly bruised, so much so indeed that he was confined to his home for several days. He has a policy, however, in an accident association, and that will go a good way in healing the hurt.

The posts for the new telephone line are in position to receive the wires, and it may be possible to hold communication with Campton and Torrent in the course of a few weeks. It is learned here that the work of putting up the wire began at Torrent on Monday.

It was rumored here a few days ago that Jackson Wilson, of Montgomery, was dead. He was a brother of S. H. Wilson, sheriff of our county, and a prominent farmer in his adopted county of Montgomery. He leaves a large family of grown children and a wife, we believe.

Our readers will notice advertisement of Electropne in another column, calling attention to reduction in rental rates to \$5.00 for two months. The Electropne is especially recommended for the ailments that are most prevalent in winter, and we have published many testimonials of its wonderful cures.

## Academy Notes.

The "Old Candy Man" will be at the academy Christmas Eve.

Matthew McClure, of Morgan county, visited the school last Friday.

Carl Mize is taking some special studies and will be one of the graduates in June, 1906.

Wm. H. Debusk and W. L. Hammonds are studying to complete the course this session.

Eugene Atkinson came in Sunday evening, after an absence of two weeks on business at Stanton.

Henry Johnson, of Menefee county, came up Monday, and arranged to put his son in school January 1st.

Miss Lillie Evans will accompany her cousin Charles Duff, to spend the holidays with relatives at Spencer.

W. L. Hammonds informs us of five persons who will enroll from Magoffin county just after the holidays.

M. V. Roberts, of Booneville, has secured the free scholarship from Owsley county he will enroll January 1st.

Bertie Johnson, of Menefee county, has secured the scholarship from this county, and will enroll January 1st.

A recent letter from Miss Ingels says her mother is now convalescent, and that she will return to her work as music-teacher about Christmas.

Samuel Greenleaf, Charles Duff and Emmitt Leford will leave Saturday to spend the holidays with parents and friends in Montgomery county.

Lloyd Jones, who has been teaching in Lee county, and his brother Lester will enroll January 1st. Lloyd has secured several pupils for the academy this session. ACADEMITE.

## Everywhere We Go

We find one who has been cured by Hood's Sarsaparilla, and people on all hands are praising the great medicine for what it has done for them and their families. Taylor, of Time, Hood's Sarsaparilla prevents serious illness by keeping the blood pure and all the organs in a healthy condition. It is the great blood purifier.

Hood's Pills become the favorite cathartic with every one who tries them. 25 cents per box.

## A Good Old Candy Man.

A Christmas cantata will be given by the school on Christmas Eve at the academy chapel. Old Santa, or The Good Old Candy Man, will appear and make everybody happy.

A Christmas tree will be arranged, upon which any who may put gifts. While the cantata will be given by the school, the Christmas tree is for all, and everybody is invited to send their gifts for Christmas to be put on it. Let everybody come. Free!

Caris (Quickall), teacher of the Hazel Green public school, closed the term last Friday without any entertainment. Mr. Quickall has rendered entire satisfaction to the patrons of the school, and as the time comes to again select a teacher he will have but little, if any, opposition for the place. Many of the patrons are loud in their praise of his methods of teaching and declare that the school has been advanced wonderfully under his tutorage.

## Holiday Rates.

The Lexington and Eastern Railway will sell excursion tickets to all stations on the L. & E. at one and one-third fare for the round trip, on December 23, 24, 25 and December 30, 31, and January 1, 1906, return coupons good until January 3, 1906.

Tomorrow week the Masons will elect officers for the ensuing year and it is earnestly requested that every member may be present. On the occasion a basket dinner will be served in the hall and the spread prepared by the wives and daughters of the members. Worslaip Master John Pierat is desirous that every member be present, and all who attend are in advance assured a good time.

## Wanted.

500 bushels of good Wheat. Will pay 75c. per bushel on notes and accounts, or in merchandise, including flour, (S. P. Kerr) and what is to be delivered at my store in Hazel Green. J. T. DAY.

J. R. DeBusk has accepted a position as solicitor with an eastern art publishing company, and leaves today for Lexington, where they have an agency, to receive his instructions. The position is one that will prove both pleasant and profitable, and Richmond is now on the highway to "make his mark."

Mrs. Rilda Day requests us to say that she is just now receiving her Christmas goods, such as toys, toilet articles, etc. All persons wishing to make purchases are invited to inspect her stock before making purchases elsewhere, as she promises that her prices will be just right.

Notice is hereby given that we will close our books on January 1, 1906, from that day forward refuse credit to one and all. We pay no favorites. All who are indebted to us are especially requested to call and settle as we need money, and need it right now. ROSE & DAVIS.

The report comes in that Joe Wilkins, who was wounded in the Edge Williams shooting scrape sometime ago, is getting along nicely, and may recover without the necessity of having his leg amputated. Mr. Edge is also doing well, and will be up and about in a short time.

In our last week's issue it was stated that the Christian church would be covered with corrugated iron roofing. It will be covered with steel roofing, which has already been ordered and will soon be put on.

## Sheriff's Sale For Taxes.

By virtue of taxes due the sheriff of Wolfe county for the years of 1892-93-94-95, due from M. C. Hutton, for one of my deputies will, on Monday the 5th day of January, 1896, between the hours of 9 o'clock, a. m. and 4 o'clock, p. m., at the court house door in the town of Campton, Wolfe county, Ky., be selling county court day, direct to the highest and best bidder for cash in hand the following described real estate to-wit: The land of M. C. Hutton, situated in the town of Campton, Wolfe county, Ky., containing 80 acres of land joining the land of W. Miller, levied on as the property of said M. C. Hutton. Tax and cost \$14.07.

JAMES K. COCKRHAM, D. S. W. C. This December 3, 1895.

## \$100 REWARD

The above reward will be paid for the safe return of my boy, who was abducted from my home on Grass, in March last. The child was taken by his divorced father, John Lewis Henry, and is supposed to be in his possession now. The boy is 6 years old past; has blue eyes, light hair, and fair complexion. There is a small blue mark on his under lip, caused from a fall, by which he may be identified on close inspection.

JULIA CECIL HENRY, Hazel Green P. O., Wolfe county, Ky.

## FOR : SALE.

800 Acres Fine Mountain Land.

I have about 800 acres of good mountain land, lying on the headwaters of Red River and adjacent to Lee City, in Wolfe county, Ky., 600 acres of which is a virgin forest of fine timber, that I desire to sell and upon reasonable terms. There is a good house and all necessary outbuildings on the place. For further information call on or address me at Lee City.

WHOLESALE : GROCERS,

MT. STERLING, KY.

## CONSUMPTION

### The Swamp Story.

The amount which the inspector says was due the state from the register of the land office was promptly paid. The register declares that the amount is not that; that it has not been collected, and that there is absolutely no delinquency and not a difference of more than four or five hundred dollars.

Under the circumstances it seems that justice has been done. Mr. Swango by the attempt to make a accusation out of difficulties which are not in the least serious, and from which no loss could come to the state.

Gov. Brown was urged to withhold the report for twelve hours until he could hear from the officer accused, but he said his duty was clear to himself and he must act regardless of the consequences to others. This indefiniteness has been one of Gov. Brown's chief characteristics, and it is undoubtedly an admirable trait in a public officer. But it is well to temper such rigidity with judgment, tolerance and consideration for others. According to our view the genial gentleman, who is all things to all men, ready to sacrifice the public to oblige a friend, is the pest of American politics.

On the other hand, executive officers must not lose sight altogether of the consequences of their acts. Individuals have a right to consider that there are times and circumstances when the sacrifice of a man to the mob, or his reputation to a strained sense of justice, is to injure society itself through this unjustifiable leniency to the individual most nearly concerned.

It is a curious study in psychology, these last hours in authority of a man whom the party has honored and whom the people respect. Sunday night Gov. Brown gives to the public a report based on prima facie evidence, which blasts the reputation of an officer whose defense has not been heard.

On Monday Gov. Brown releases from the penitentiary two men convicted of forgery. Innumerable, involving a hundred times as much as the amount paid in the land office. These forgers have had a full and fair trial, and both have been convicted by unbiased juries.

Another man convicted of killing a fellow man a few months ago is set free because the governor is importuned by 1,400 petitioners, and because he thinks there are grounds to believe the plea of self-defense had something to sustain it.

The Evening Post is not disposed to criticize any specific acts of clemency, believing the responsible officer will faithfully investigate each case and not allow his sympathies to warp his judgment. These are times when it appears an executive loses sight of justice under a desire to relieve men from the consequences of their acts. Then what is called executive clemency becomes a menace to the welfare of society.

But Gov. Brown has not heretofore manifested any such disposition, and so the public is disposed to silently accept his decisions, even in extreme cases. But the contrast between the indefiniteness with which Judge Swango is treated when accused of a minor offense and the ready clemency accorded men convicted of high crimes against society, excites comment throughout the state, and must do so.—Louisville Post.

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cough." Mr. J. M. Hatcher says: "For three years I have used Chamberlain's Cough Remedy in my family and its results have always been satisfactory." For sale by John M. Rose.

On or about the first of last March my mother sold out and left where she was living in Magoffin county and since that time has not been heard from. I fear that she has started west and some accident happened her, as she was talking of coming to Texas about that time. She took with her a girl about 14 years of age and a boy 10 or 12 years old. The girl's name is Polly. She is fair complexioned with light hair and brown eyes. The little boy is fair complexioned with light hair and blue eyes. His name is Chester. Any information will be gladly received. BERRY COCHRAN, Georgetown, Texas.

From a private letter to John B. Davis of this place, it is learned that Robert C. Teets, of the Teets Bros. show, died on Thanksgiving day, while enroute from Plymouth, North Carolina to Washington, North Carolina. The immediate cause of death was paralysis of the heart superinduced from an injury sustained in being thrown from a wagon a few days previous. Bitterly we all know here and see to we, like by all, who will regret to read of his death. He leaves a wife and child, now at Norfolk, Va., another, brothers and sister, to mourn his loss.

We will take good sound corn on all subscription due this office, where parties have not the money, and allow 35¢ cents per bushel. The corn is to be delivered at this office.

James M. Roberts, of Campton, has closed a very interesting meeting at Spencer church, Wolfe county, and will commence a meeting at the Calhoun church, Wolfe county Dec 22. Every one invited to attend.

Why suffer with that headache, when you can secure a box of Magnin's at this office for 50 cents and get immediate relief at this office.

The district school known as the Pomeroy school in Menefee county closed its term on Friday last with a big entertainment. The program consisted of dialogues, recitations, music, etc., and quite a crowd was present, including many from Fremont. Ben Quick-sall, the teacher, is quite popular with the people of the district, having taught the same school for three consecutive years, and he has rendered such universal satisfaction that it is doubtful if they would be satisfied with any other teacher.

Talleyrand declared that a good dinner had great influence on human actions. This is certainly true. Many a man loses his nerve from no greater cause than an attack of biliousness. Every business man should keep in his desk Ramon's Tonic Liver Pills. A box costs only 25 cents, but is worth \$25 in its results. Ask your druggist about it, and have him to give you a free sample dose.

J. H. Thompson is visiting his wife and family at this place, and is accompanied by a Mr. Johnson, of Beaver creek, Menefee county, who is a brother of Mrs. Thompson. Mr. Thompson is engaged in the timber business at Farmington, Rowan county, and is away from home most of the time.

Japanese Oil is said to be the most powerful and perfect for external application that scientific chemists have yet been able to compound. Hundreds and thousands testify to this, as it has saved both life and expense. Sold at this office at 50 cents a bottle. Try it, as it is a household necessity and always a "friend in need."

Deputy Marshal and Quaggar Wm. Gambill, of Jackson, was in town last week.

## In Poor Health

means so much more than you imagine—serious and fatal diseases result from trifling ailments neglected. Don't play with Nature's greatest gift—health.

## Brown's Iron Bitters

If you are feeling out of sorts, and generally exhausted, have no energy, and can't begin at anything, the most reliable, the strongest medicine which is in the world is Brown's Iron Bitters. ## DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by saying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiate, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. IT WILL NOT. YOU WHEN TO STOP and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure), \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. Eureka Chemical & Mfg. Co., La Crosse, Wis.

Office of THE PIONEER PRESS COMPANY, C. W. HORNICK, Esq., ST. PAUL, MINN., September 7, 1894.

DEAR SIR:—I have been a tobacco user for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, and my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac" and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and today I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker very appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it to you very truly. C. W. HORNICK.
